

Roof Top  
Unit

November 18, 2009

On behalf of Barber Foods, I want to thank you for introducing the IceCOLD technology to us, coordinating a successful pilot installation at our Milliken Street facility, and developing a detailed & comprehensive proposal for expanding the use of IceCOLD at both of our facilities.

I was extremely pleased and impressed that the pilot installation of IceCOLD in one of our Trane 15-ton air conditioning units demonstrated a 42.7% efficiency improvement.

I appreciate your professionalism, drive, organization, and passion to do what is best for the earth. I look forward to continuing to work with you in order to expand the benefits of IceCOLD throughout our organization, and I hope that this letter helps to encourage others to reap the benefits of IceCOLD as well.

Sincerely,

A handwritten signature in black ink that reads "Steve Perry". The signature is written in a cursive, flowing style.
